Re: Pressure Sensitive Tape Data Sheets:

Dear Valued Customer,

Walker Tape® and Beautify™ adhesive tapes do not have SDS sheets.

These tapes are not regulated under, and SDS are not required by, the OSHA Hazard Communication Standard (29 CFR 1910.1200 amended in the 8-24-87 Federal Register) because when used as recommended or under ordinary conditions, it should not present a health and safety hazard. Here is a link to the OSHA guidelines:

<https://www.osha.gov/laws-regs/regulations/standardnumber/1910/1910.1200>.

For a product to be considered a hazardous substance requiring an SDS sheet, the products must have shown sufficient evidence, (based on at least one study conducted in accordance with established principles), that acute or chronic health effects may occur if exposed to the product and/or present an otherwise significant health hazard.

We aim to be open and up front about our products and their ingredients as we stand behind them fully. If you have any further questions or concerns, please contact us and we'll be more than happy to assist you.
